

RESILIENCE IN ROOF DESIGN

Evolution of Roofing Design Leads to Greater Control

PROPOSALS TO ADDRESS THE LABOR SHORTAGE

-  Reform Legislation Focused on Skilled Labor
-  Fund Veteran Vocational Training
-  Encourage Partnerships between Apprenticeship Programs & Educational Institutions
-  Increase Public & Private Funding
-  Establish & Fund High School & Community College Technical Programs
-  Enact Immigration Reform
-  Reduce Installation Time & Labor Needs with Custom-fabricated, Factory-made Building Systems

SUSTAINABLE ROOF SYSTEMS

Solar Roof Systems

Cool Roof Systems

Vegetative Roof Systems

Recycled Roof Systems

New Building Codes = Increased Roof Resilience

- ☒ Installation Code Enhancements
- ☒ Wind Design Code Enhancements
- ☒ Manufacturer-driven Roof Perimeter Enhancements
- ☒ Energy Code Enhancements

How Factory Fabrication Can Ensure Resilient Roof Installation

AESTHETICS
